SUMMARY

Enthusiastic and detail-oriented Junior Web Developer with a passion for front-end development and hands-on experience in JavaScript and React.js. Seeking to contribute to a dynamic team and enhance user experience through innovative web solutions.

WORK EXPERIENCE

Associate Software Engineer, Optum

June 2022-Dec 2023

- **Oncall Support Specialist**-Provided exceptional oncall support for production issues, often under tight deadlines. Mastered legacy code bases in COBOL and MySQL to resolve daily cases effectively.
- Collaborated with cross-functional teams, increasing project success rates by 10%. Enhanced Java programs by modifying logic to extract additional data from a MySQL database.
- Conducted comprehensive project analyses to identify and rectify discrepancies in frontend applications. Utilized HTML, CSS, and JavaScript to craft engaging digital experiences

Content writer-Stumagz

Feb 2020 - Jan 2021

- **SEO Research:** Research and analyze top SEO content topics to enhance article visibility. Create engaging articles on topics such as human emotions and positive thinking.
- **Content Strategy:** Develop content strategies to attract and retain a target audience.

PROJECT

- **Dactylology Recognition System - :International Journal for Innovative Engineering & Management Research**-The aim of this project is to use the corresponding gesture to recognize Alphabets in Indian Sign Language and converting it into understandable language (Text) and finally into speech using Google Text to Speech (gTTS) module. [Research Paper](#)
- **Razorpay Clone**-Replicated the front-end page using Tailwind CSS to match the original Razorpay design. Developed and enhanced various front-end project components.
